

## GLORIA FERRER IS CERTIFIED SUSTAINABLE!

Inspired by a centuries-old understanding of the delicate balance between earth and wine, Gloria Ferrer Caves & Vineyards pursues winegrowing with a respect for each vine and for each person in our extended California family. Gloria Ferrer's founders, the Ferrer family of Spain, were the first Spanish winery to obtain international ISO 14001 certification for ethical environmental management. As of 2016 the California Sustainable Winegrowing Alliance officially deemed Gloria Ferrer as sustainable.

This standard encourages the implementation of systematic approaches to improving environmental practices. True to our roots, sustainability has always been integral to all that we do at Gloria Ferrer.

### Sustainability Values:

- Produce the best quality winegrapes and wine possible
- Provide leadership in protecting the environment and conserving natural resources
- Maintain the long-term viability of agricultural lands
- Support the economic and social wellbeing of farm and winery employees
- Respect and communicate with neighbors and community members; respond to their concerns in a considerate manner
- Enhance local communities through job creation, supporting local business and actively working on important community
- Honor the California wine community's entrepreneurial spirit
- Support research and education as well as monitor and evaluate existing practices to expedite continual improvements
